

# INSTRUCTION MANUAL

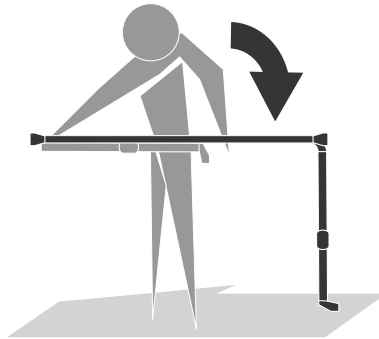

SETUP YOUR INDOOR / OUTDOOR ECODRY™ CLOTHESLINE

## \* PLEASE NOTE

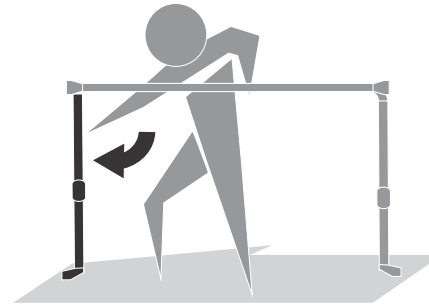

To store ECODRY™ CLOTHESLINE, lift tabs & collapse inner leg, followed by outer leg ( Reverse of setup )

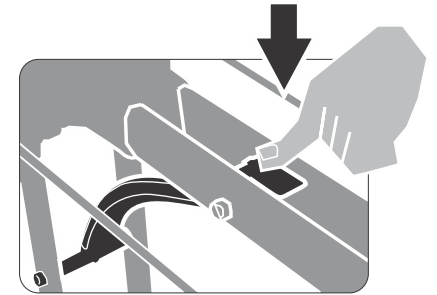

Hold vertically and extend outer leg

Tip horizontally onto extended leg

Extend inner leg to touch the floor

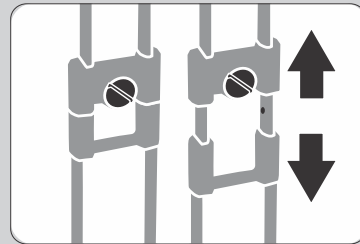

Lock legs in place by depressing tab ( do this on both sides )

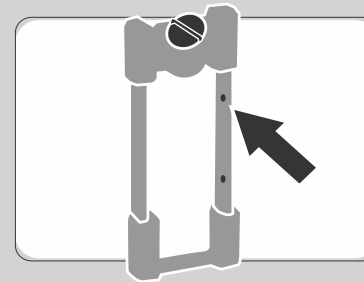

## Adjust height to suit your needs

Turn ratchet clockwise to release lock

Extend legs up or down to preferred height

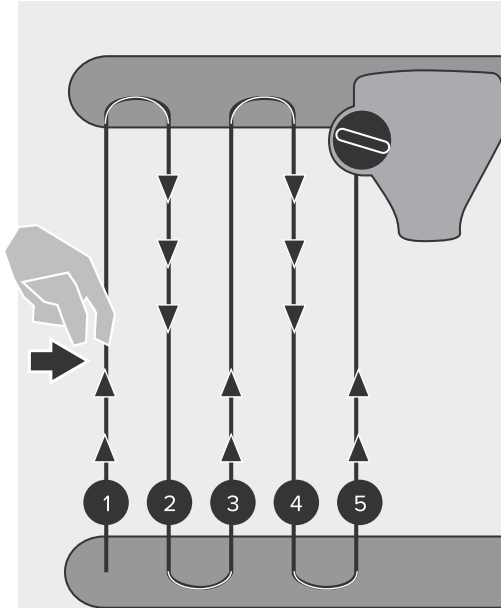

Choose from 4 height levels ( listen for click )

Release ratchet to lock legs into place

## How to tension line

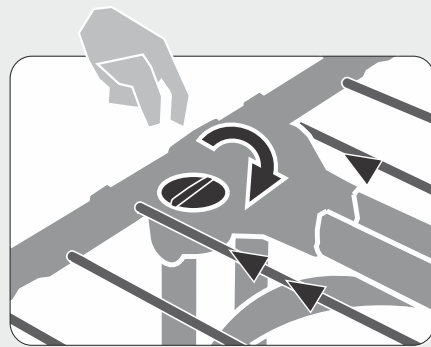

### To tension clothes line:

Step 1) Gently pull line 1 towards the direction of the arrows as per diagram.

Step 2) Move to line 2, gently pull until slack is transferred from line 1 to line 2.

Step 3) Repeat this for lines 3 & 4 until all slack is transferred to line 5.

Step 4) Turn ratchet clockwise to remove slack from line 5 (DO NOT over tighten).

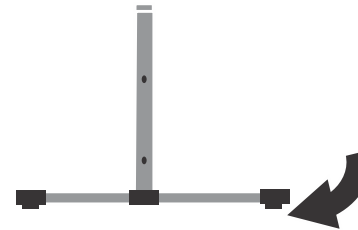

**WARNING:**  
DO NOT tension unless line is slack.

## Easy to move

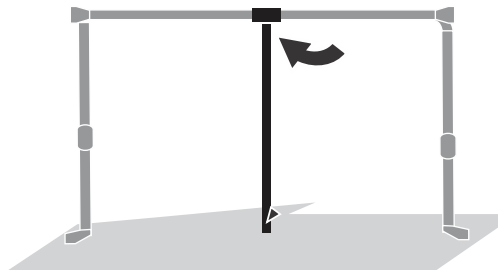

To move, lift one side (approx. knee height) & drag.

## Hidden Castors

Hidden castors on both sides will glide over most smooth surfaces.

## Anchor strap supplied

On windy days secure the line by looping the strap through orange block in centre of frame. Anchor the other side of the strap to ground using a tent peg, sandbag or weights.

## Features

Unique line tension system - helps to keep the lines tight.

Multiple height adjustments - great for keeping sheets off the ground.

Rust and UV resistant stainless steel fittings are ideal for all weather conditions.

Light & durable aluminum frame easy to fold and store.

Hidden castors - glide easily over smooth surfaces.
